48V MAGNETIC TRACK SYSTEM
2024-2025

The image shows two parallel magnetic track lighting fixtures mounted on a white ceiling. The upper fixture is illuminated, showing a series of small, warm-toned light sources. The lower fixture is unlit. The background is a white ceiling and a textured, reddish-brown wall. The lighting fixtures are dark grey or black with a white track.

5mm SERIES MAGNETIC TRACK

Let the space more choices.

The high level of appearance and comfortable space is even more attractive. Neeko series, can be full of science and technology, can also be warm, let you rest assured that the free collocation, it in the form of point, line, surface lighting, highlighting the sense of space and line sense of the building, so that simple lines balance the space feeling, give people more imagination.

Selectable

Overhead track

Surface mounted track

Embedded track

Aluminum profile processing is more flexible, to provide more style choices, delicate and diverse surface treatment is to meet the different personality preferences of consumers.

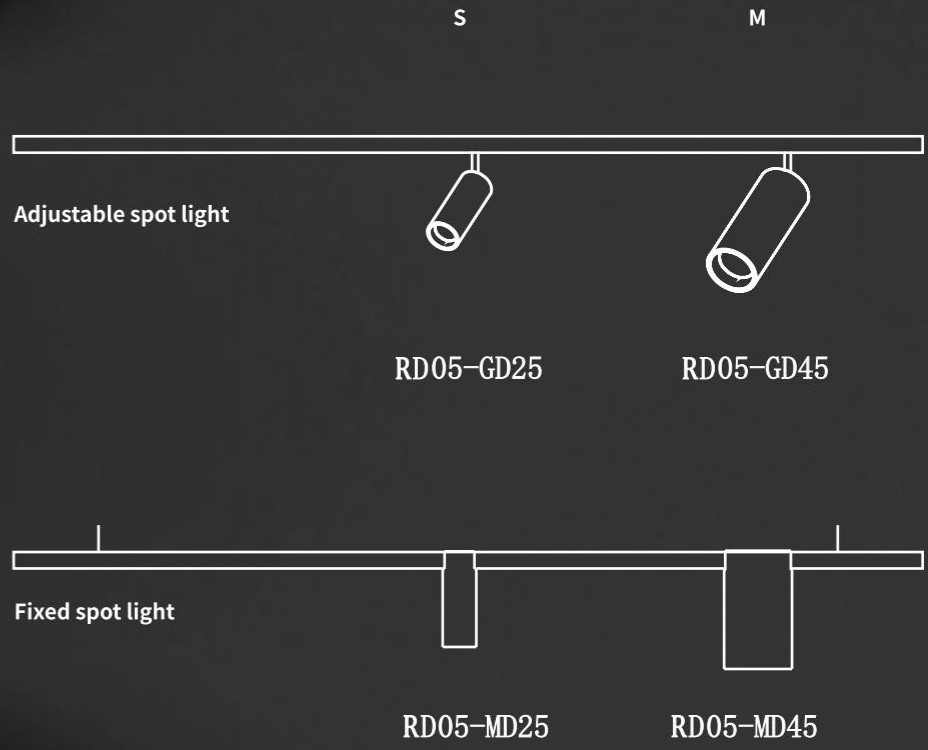

5mm series.

Compilation

Small size

Small magnetic lamp is available in two sizes optimised for different applications. We have significantly miniaturised the luminaire dimensions of Neeko size S to a diameter of only 25 mm.

Ideal for small exhibits and shop windows as well as for private use at very short distances

Various forms

Aluminum profile processing is more flexible, to provide more style choices, delicate and diverse surface treatment is to meet the different personality preferences of consumers.

Intelligent

Users can use smart devices such as mobile phones and tablets to control the switch, brightness, color and other parameters of LED lights through Bluetooth connection to achieve remote control

2700K 3000K 4000K

Rotate

magnet.

Safety clip

Safety high magnetic lamp mostly uses 24V or 48V low voltage design
There is no danger of electric shock when installing replacement lamps or touching the track directly by hand.

The lamp has a safety buckle stuck in the inner wall of the track, and the buckle will be released by turning the safety button

Magnetic floodlight

The background of the page is a photograph of a modern interior space. A black track lighting fixture is mounted on a white ceiling, with four black cylindrical spotlights pointing downwards. The walls are covered in vertical wooden slats, and the lighting creates a warm, ambient glow. The overall aesthetic is clean and contemporary.

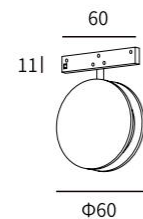

This spotlight provides intense illumination with excellent energy efficiency while emitting soft light that both highlights the artwork and creates a warm atmosphere inside
